CURRICULUM VITAE
Mark Montvai

ABOUT ME

BIO

I love creating digital products that people want to use. With both a design and technical background I specialise in interaction design and front-end development, combining it with an eye for detail and a lot of enthousiasm.

EXPERIENCE

AUG 2014 - MAY 2017

Designer / Developer at **Siteworkers**
I was the most design minded person in a small internet agency with a technical focus. My focus was mostly on interaction design and front-end development, but had projects where I developed my graphic design, project management and back-end development skills.

AUG 2015 - PRESENT

Designer / Front-end Developer for **Destiny Trials Report**
A webtool for the popular video game "Destiny" with 3,000,000 sessions a month. I'm the one responsible for all design and HTML/CSS.

JAN 2013 - PRESENT

Digital Freelancer with **Plafhop**
My one-man company making me available for freelance projects, mostly website design and development.

2008 - 2013

Live Operator at **Infostrada Sports**

EDUCATION

2010 - 2014

Communication and Multimedia Design
Utrecht University of Applied Sciences
Focus on User Experience Design. For half a year I followed the minor Co-Design Studio, where changing interdisciplinary and international teams worked together in a number of short design projects for real clients.

NOV 2011 - JUL 2012
Treasurer & member of the board for **SV MAD**
I was responsible for the financials of the student union. Besides that I helped to introduce a member administration system and curated the website.

2007 - 2012

Computer Science
Utrecht University
Bachelor of Science (BSc)

FEB 2011 - AUG 2014
Member of the Sports Committee of **A-Eskwadraat**
I organised sport related events for a student union. All posters needed for the promotion of our events were designed by me.
